LinkedIn   Website (CV)

Experienced Software Engineer with frontend/product focus. Passionate about crafting minimalistic products with clean, responsive UI interactions that look and feel right to the user.

EMPLOYMENT HISTORY

Software Engineer (Project-Based), Vesselfront   Remote
Sept 2025 — Present
Built and maintained frontend features for an AI-powered maritime product and the company website • Worked in a high-ownership startup environment with minimal role boundaries, taking responsibility beyond pure implementation • Actively contributed to design and product decisions, proposing UI/UX solutions that improved usability of complex, data-heavy workflows.

Mid-level Frontend Developer, Yodeck   Athens
Jan 2025 — Present
Maintained and extended a large-scale B2B SaaS frontend built with Backbone.js, used by thousands of active customers • Contributed to the gradual migration toward React, improving component reuse and long-term maintainability • Collaborated closely with product, backend, and design teams in a fast-growing startup.

Frontend Developer, PraxisEins   Remote
Jun 2023 — Jan 2025
Built a data-driven dashboard using Next.js, React, TypeScript and the Chart.js library • Implemented end-to-end testing with Playwright and maintained consistent UI with TailwindCSS.

Fullstack Developer, Deloitte   Iraklion
Sep 2022 — Jun 2023
Developed a multi-variable filtering tool • Improved PDF rendering and exporting features • Collaborated in an agile environment for the Ducati Motors salesforce team.

Internship, Conveos   Iraklion
Jun 2022 — Aug 2022
Developed a recipe application from concept to deployment • Translated Figma designs into production-ready front-end code.

EDUCATION

MSc in Operational Research and Decision Making Technical University of Crete
BSc in Computer Science University of Crete

SKILLS
